# Numeric Functions

When working with numeric data, you might find it helpful to use functions. The following are the number functions that are available in Business Central

Round

Abs

Power

Random

# Round

NewNumber := Round(Number, [Precision], [Direction])

Direction:    '=' : Rounds up or down to the nearest value. Values of 5 or greater rounded up. Values of less than 5 are rounded down

'>' : Rounds up

'<' : Rounds down

NewNumber := Round(1234.4567, 0.001, '>')

0.001

1234.45678

1234.457
